

ASSA ABLOY PRESENTS:

The Intelligent Openings Showroom

SPONSORED BY:

Door Security Solutions® and Translucent Security - The latest in Access Controls Mobile Showcase

Experience Innovation in Action

Discover how to implement locking solutions that provide the right level of security to protect specific assets behind each door. The ASSA ABLOY Intelligent Openings Showroom presents an overview of security technologies ranging from simple mechanical locks to the latest highly intelligent locking solutions. Advancements in security technology give end users a full range of options to secure their facility.

WHEN:

Friday, November 4, 2016
10:00 AM - 3:00 PM

WHERE:

Translucent Security
1248 Sussex Turnpike, Bldg A-3
Randolph, New Jersey 07869

The Intelligent Openings Showroom Features:

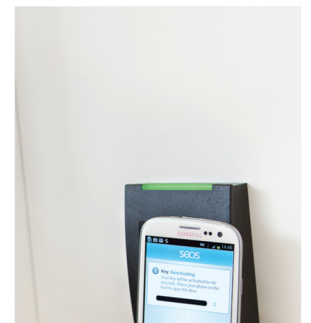

- Locks that connect to an IP network through WiFi and Ethernet connections
- Open-architecture Integrated Wiegand locks and strikes that operate off third-party software
- Intelligent doorway components that connect, communicate and continuously relay their status to a security network
